1	**Back Bay Signature Sound** The sound that we are known for! Refined bass, relaxed midrange, and crisp highs.
2	**Bass Boost** If you want booming bass without any harshness, you are in the right place.
3	**Vocal Boost** Great for calls! Enhance vocal clarity without any boominess.

CONNECT TO COMPUTER

Windows®
Put your headphone into **pairing mode**
Then, in Windows, search for **"Bluetooth"**
Select **"Bluetooth and other devices settings"**
Select **"Add Bluetooth or other device"**
Select **"Bluetooth"** and choose **"Back Bay ClearCall 70"**
Then click **"Done"**

To check that everything is configured correctly, please open **Sound** setting and check the following:

Output
Choose your output device - should be set to
Headphones (Back Bay ClearCall 70 stereo)

Input
Choose your input device - should be set to
**Headset (Back Bay ClearCall 70 Hands-free AG Audio)**

Mac®
Put your headphone into **pairing mode**
On your Mac, please go to **System Preferences** and then **Bluetooth**

Select "**Back Bay ClearCall 70**" from the list of devices by clicking **"connect"**

To check that everything is configured correctly, please go to **Sound**

Output should be set to **Back Bay ClearCall 70**
Input should be set to **Back Bay ClearCall 70**

CONNECT 2 DEVICES
AT THE SAME TIME

FIRST Device

Bluetooth

SECOND Device

Bluetooth
Back Bay ClearCall 70

1 Once your **first** device is connected, please turn off Bluetooth on that device. The "Back Bay ClearCall 70" will then go back into pairing mode.

2 On your **second** device, go to Bluetooth settings and select the "**Back Bay ClearCall 70**" to pair.

3 On your first device, go back to your Bluetooth setting, turn **Bluetooth** on again, and select "**Back Bay ClearCall 70**" to connect. A call may come through from either device. If it is a call from your phone, you can answer it on your headphones by pressing the middle button. If it is a call from your computer, you will need to answer on your computer and it will come through your headphones.

*When the headphones power on, they will automatically connect to the last connected device. To reconnect the 2nd device, please manually connect to "Back Bay ClearCall 70" from that device.

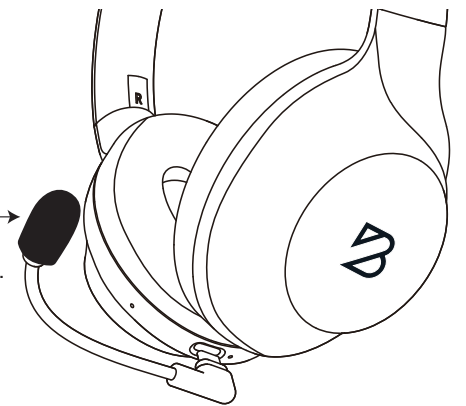

BOOM MICROPHONE

Boom Microphone
To enhance the microphone quality for calls, you can use the included boom microphone by plugging it into the USB-C charging port.
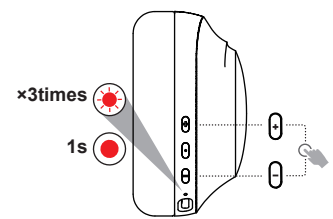

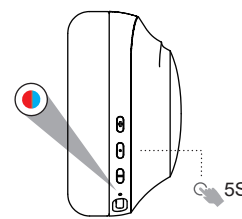

Foam Sleeve
To increase clarity and remove any harshness in your voice, please use the included foam mic sleeve.

When you unplug the boom microphone, the audio input will default back to the built-in microphone.

FACTORY RESET

Please make sure you forget "Back Bay ClearCall 70" from your Bluetooth device settings before resetting.

5S

×3times

1s

1 When Power is off, press and hold the power button for 5 seconds until the light flashes **blue and red**.

2 Then, hold **+/-** buttons simultaneously for 10 seconds until you see the **red light flash 3 times and then turn solid** for **1 second**. The headphones will power **OFF** automatically.
